Roofs are big. Color is important. Choose wisely.

1. **Think big**—View a full-sized shingle, not just a swatch or sample.
2. **Be real**—Look at actual houses where the house/roof color combinations are similar to what you're considering.
3. **Watch the light**—As you look, notice how colors appear under changing light conditions and at various times of day.
4. **Consider the pitch**—Look for roofs with a similar pitch to your own. A roof's pitch affects the way you see its color.
5. **Ask your contractor**—They might be able to point you to a home where they've installed a roof of your style and color.
